## **The Story of Melvin Morland**

In any business, the most important personality is the coach as our staff are the drivers of the team and the most important part of the coach's job is hiring the right kind of talent to blend into a winning team. (Trisha Amable, 21,07,2024)

This is the principle applied in The Cat Got The Cream online workshop for UK SMEs when they register their interest.

In the UK higher education includes voluntary education graduates are required to undertake The Cat Got The Cream online workshop incubation pathway services for 18 months after tertiary education in a scheme called Personal Development Leads To Business Development (PDLTBD) to get the Legacy Accreditation.

Melvin Morland had completed several business and marketing programs 3 years ago before contacting us and he has been looking for jobs without success for a while.

Most English freshers' graduates are in similar positions, but he wouldn't wallow in self-pity—so he came to our office to meet the boss and asked for advice on what he could do with his money saved and asked for advice on what he could do with the little money he had in his saving account at the time about £2000.

After discussing his interest at length, we both agreed that it is more profitable for Melvin to start selling shopping designer bags online and purchase The Core Assets + The Cellar: A Winners Combination.

He invested that small money in The Cat Got The Cream online workshop and started his fledging business promptly under our guidance. He sold those designer bags very quickly; words spread about Melvin Morland within the church.

Considering that his church members had the size of a small market of 9.5 million UK-wide; strong. In comparison, the UK population currently sits at 67.97 million as of Friday 19th July 2024. Data based on the elaboration of the latest United Nations data<sup>1</sup>.

His business grew rapidly from there on. Within 2 years his sales were more than £100,000 per year from the lowly £2000 initial capital. Melvin now employs people to deliver his designer shopping bags and sell his bags in-store after settling his suppliers. He pays them in commission and other salaries depending on their job's role.

Let me put his case in context because if you're reading this globally, you may wonder if Melvin's status is a big deal but let me tell you, in a country where the annual salary of a UK teacher is on average £24,000 per year as of 16 May 2024 study undertaken by Gems Education Solution—Melvin, done very well indeed.

To show his appreciation for what he believes got him this number of sales to comfortably pay his people, he left two pieces of feedback on our website [Girlfridayz Testimonial](#). If Melvin continues at this rate, it won't be long before he achieves greater things in his life for his family to enjoy the proceeds of his hard work and daily effort.

The lesson here for UK business owners to grasp is that Melvin starts with little funds and gradually builds momentum towards independence by taking initiative and the persistence to stay the course paid off.

I'm more inspired by his story than some of my more affluent customers and I use him as an example a lot when on the speaking podium.

At Girlfridayz Limited we take great pride in what we do and always do the right things for our clients. We believe in everyone who comes through our door. We take great care and respect for the work completed with due diligence for our clientele and own it.

Now! If you want to achieve similar or better sales than Melvin and you are committed to your growth by all means register your interest after taking your [Readiness Score Challenge](#) because we need your score to determine your suitability to participate in [The Cat Got The Cream online workshop](#) for 18 months to ensure your business take off. Please bear in mind that only the committed to their growth small business owners will have the chance to grow their venture with us.

**Here is a powerful poem which is ever so true.**

There are no limitations to the mind except those we acknowledge.

Both Poverty and Riches are the offspring of thought.

Here a powerful poem If you think you are beaten, you are

if you think you dare not, you don't

if you like to win, but think you can't it is almost certain you won't

If you think you lose. you're lost for out of the world we find success begins with a person will,

it's all in the state of mind.

If you think you are outclassed, you are,

you got to think high to rise.

You've got to be sure of yourself before you win a prize

Life's battles don't always go to the stronger or faster man but soon or late the one who wins is the one WHO THINKS HE CAN

Which lead to commitment to succeed.

We are looking forward to seeing you and help you grow and prosper like our Melvin Morland who has really benefitted from the Cat Got The Cream services. We are eager to have you with us and support you through our mentoring / coaching program offer to the UK small business.

Best Regard
